55	Minute by the Most Noble the		Records his views on encouraging the growth of American Cotton in Coimbatore, and states that Dr. Wight's proposal for a remission of Assessment on lands under American Cotton Cultivation should be tried, but only for a limited term. Thinks that the sooner the Government relinquishes all experimental Farms and its Official Agency for the purpose of raising Cotton and other raw produce, the better, as until private capital and enterprise are embarked in the experiment, no adequate trial can be made, nor a fair conclusion drawn, but does not include Mr. Finnie, the American planter in these remarks	3 Septr. 1847	11 Jany No. 8	
153	Minute by the Do.		States he has given his best consideration to both Dr. Wight's propositions Vizt. to reduce the Assessment or Land Tax 50 per Cent and to establish two additional Experimental Farms, that with regard to the first he has nothing to add to the remarks recorded in his Minute of the 3d September, but that he does not concur in the second. Points out what he considers to be the System which ought to be followed and which alone can determine whether Southern India can compete with America and eventually become a Cotton Field for the European market	11th Decr.	11th Do.
